Caravan of dreams pdf full text reading

The book is, in the words on the back cover, "[a] rich collection of Eastern oral and written literature." It is itself like a caravan of small treasures (which seem to grow bigger as one reads). I flew from the secret worldDesiring to wing at once to heights.But as I found none worthy of the SecretI went back by the door through which I came.The publisher, ISF Publishing (, is releasing a new edition of "Caravan of Dreams" in November 2014. The alchemist continues to travel with Santiago as far as a Coptic monastery several hours from the pyramids. Before leaving, one of the men tries to illustrate the worthlessness of dreams by telling Santiago about his own dream. A strange, magical old man named Melchizedek, who claims to be the King of Salem, echoes the gypsy's advice and tells Santiago that it is his Personal Legend to journey to the pyramids. It concerns a treasure buried in an abandoned church in Spain where a sycamore tree grows. During a walk in the desert, Santiago witnesses an omen that portends an attack on the historically neutral oasis. He gives Santiago gold and sends him off. These stories adhere, return, seeming somehow to expand after reading into an area beyond outer consciousness. The diversity of forms and styles may be a sort of tonic, may help prevent the reader from falling into a somnolence brought on by the repetition of material in a single manner (for instance only tales; or only information; or only poetry). The Table Talk too is full of stories, piquant observations, and aphoristic-like remarks that bear thinking about, such as: A Motto of the Human RaceTell me what to do; but it must be what I want you to tell me.Or, Fortune'When Fortune knocks, open the door,' they say. Santiago begins digging for the treasure at the foot of the pyramids, but two men accost him and beat him. they seem to enrich, elevate, nourish, without intellectualisation or special emotional attunement. He prays to the Hand That Wrote All, and at the height of the storm he disappears. It seems more reminiscent of Middle eastern classics like Rumi's Mathnawi, Saadi's Rose Garden, or the Thousand and One Nights, in being a collection of many different types of written materials -- autobiography, poetry, jokes, proverbs, prophetic traditions, information or exposition, tales, table-talk, teaching encounters. Much of the material in the book can help us to see ourselves, by showing us what we are like in some states. There, he demonstrates to Santiago his ability to turn lead into gold using the Philosopher's Stone. Like fine poems, their balanced harmonies appeal... It is still, 46 years after its publication, hard to fit into our conventional literary categories. While the alchemist and Santiago continue through the desert, the alchemist shares much of his wisdom about the Soul of the World. Melchizedek convinces Santiago to sell his flock and set off to Tangier. (This section seems to have been so pertinent to Doris Lessing that she quoted from it at the beginning of volume 2 of her autobiography, "Walking in the Shade.") Areas of the book that seem less clear or enjoyable at first will reward repeated attention. The Englishman plans to ask the alchemist the secret of his trade. He reappears on the other side of the camp, and the tribesmen, awed by the power of the storm and by Santiago's ability, let him and the alchemist go free. The Short Stories alone have a great range of moods and styles, from the lurid 'Prince of Darkness' to the stately goofiness of 'The Tale of Melon City,' to the strange magic and wonder of 'The Story of Mushkil Gusha' and 'The Magic Horse.' The Extracts include a wide variety of material, like passages from Gibbon's "Decline and Fall," more tales, and remarks by Sufi teaching masters. The church is the same one in which Santiago had his original dream, and he finally understands where his treasure is. He returns to Spain to find a chest of jewels and gold buried under the tree, and plans to return with it to Al-Fayoum, where he will reunite with Fatima, who awaits him. The experience is more than rewarding, and impossible to forget.' – Douglas Hill, Tribune CARAVAN OF DREAMS, by IDRIES SHAH"Caravan of Dreams" by Idries Shah, originally published in 1968, is being reissued this November (2014) in a new edition. Santiago learns the Englishman is traveling with the caravan to the Saharan oasis of Al-Fayoum, where a powerful, 200-year-old alchemist resides. Santiago decides to cash in his earnings and continue pursuing his Personal Legend: to find treasure at the pyramids. For one, he learns that the secret of alchemy is written on a stone called the Emerald Tablet. But why should one make fortune knock, by keeping the door shut?Or, Inner KnowledgeYou want to become wise in one lesson: First become a real human being. The conservative and kindly merchant teaches Santiago several lessons, and Santiago encourages the merchant to take risks with his business. Tahir Shah, one of the greatest travellers of the contemporary world, wrote that Bruce Chatwin's "The Songlines" and "Caravan of Dreams" are the two books he always takes travelling. -- thought is commented on in 'A Few Short Miles' in the Table Talk section.)Following some of the suggestions in the book can open up what almost seem like new worlds to the observer. ...more SaveSave for later Did you know you can highlight text to take a note? By turns the text is abrasive, practical, soothing, wonder-provoking, informative, wry, funny, haunting, and exquisitely evocative. Santiago consults a gypsy woman to interpret the dream, and to his surprise she tells him to go to Egypt. "Caravan of Dreams" is arranged into several sections: Traditions of the Prophet, Adventures of Mulla Nasrudin, travels (on the Red Sea and the pilgrimage to Mecca), Thoughts from Omar Khayyam, Meditations of Rumi, Short Stories, Extracts, and Table Talk by Idries Shah. (And the process of deformation of -- or through? There are relentless psychological appraisals in 'Saadi: On Envy' and surprisingly vivid anecdotes like 'The Artillery' (also very funny). He has the dream every time he sleeps under a sycamore tree that grows out of the ruins of a church. He learns a lot from the Englishman during the journey. He joins a caravan crossing the Sahara desert toward Egypt and meets an Englishman who is studying to become an alchemist. In exchange for his life and the life of Santiago, the alchemist hands over to the tribe all of Santiago's money and tells the soldiers that Santiago is a powerful alchemist who will turn into wind within three days. When Santiago arrives in Tangier, a thief robs him, forcing him to find work with a local crystal merchant. The ultimate creation of alchemy is the Master Work, which consists of a solid called the Philosophers' Stone that can turn lead to gold, and a liquid called the Elixir of Life that can cure all ills. But the effect does not stop there. They are mere days away from the pyramids when a tribe of Arab soldiers captures them. He convinces Santiago to leave Fatima and the caravan for the time to finish his journey to the pyramids, and he offers to accompany Santiago on the next leg of his trip. As it turns out, the caravan must make an extended stop in Al-Fayoum in order to avoid increasingly violent tribal wars taking place in the desert. There, Santiago falls in love with Fatima, who lives at the oasis. When Santiago speaks to them about his dream vision, they decide he must have no money and let him live. It is one of my favourite books, and one of the most beautiful books I've ever read. x A recurring dream troubles Santiago, a young and adventurous Andalusian shepherd. The alchemist gets word of Santiago's vision and invites Santiago on a trip into the desert, during which he teaches Santiago about the importance of listening to his heart and pursuing his Personal Legend. Santiago feels alarmed because he has no idea how to turn into the wind, and over the next three days he contemplates the desert. During the dream, a child tells him to seek treasure at the foot of the Egyptian pyramids. The 'lens' of commentary shrinks and deforms the object. He warns the tribal chieftains of the attack, and as a result, Al-Fayoum successfully defends itself against the assault. (See his "In Arabian Nights: A Caravan of Moroccan Dreams.") Reading this book, one seems close to the very heart of what literature is trying to say, and perhaps to what it, at its best, is trying to do.Here is one magical piece, by Omar Khayyam: I FlewI was a hawk. The risks pay off, and Santiago becomes a rich man in just a year. The book's arrangement seems to help us approach the material in a way that minimizes the 'Coercive Agencies' that Shah discusses in it. Like the suggestion that we study "[t]he growth, development and activity of informal coercive agencies, not often recognised as such because of the poorly delineated identification and measurement tools in current use." Pursuing this can reveal a largely unsuspected world of manipulative patterns and behaviours that constrain us, and seem at least as harmful and expensive to society as recognized, formal tyrannies. Commenting on any part or aspect of the book seems to create a too-narrow focus on that part, and to trivialize it. On the third day, he communicates with the wind and the sun and coaxes them to help him create a tremendous sandstorm.
